11 school. You know, obviously, there's a million things that 1 1 2 How long have you been at the 2 I -- that I care about at the university, but Ο. 3 University of Oregon? <u>3</u> three major priorities. One is to enhance our 4 Α. I started -- my date of appointment 4 academic -- both our reputation academically, our 5 was July 1, 2015. 5 research, our research grants from the federal government as one indicia of that. 6 Who reports to you? <u>6</u> Α. Well, my direct reports include all of 7 I also care about improving our 8 the vice presidents and the provost, in addition 8 teaching, making sure that we are educating the the Title IX officer reports to me, the -- I 9 9 next generation of Oregonians. Secondly, so the believe he would be an associate vice president second -- so that's one bucket of priority. 10 10 for tribal relations reports to me. I have a part 11 The second bucket of priority is that 11 12 report of the vice president for research and <u>12</u> we ensure our students' success, meaning that we want to be an accessible university. Oregon isn't innovation. 13 13 14 Ο. Does the general counsel report to you 14 a wealthy state and so we want to make sure 15 also? <u>15</u> students of all sorts can come here, but very 16 Yes. He's a vice president. 16 importantly, we want them to succeed because just 17 Oh, okay. And you're also president <u>17</u> getting them in the door isn't enough. We have to 18 of the faculty. Is that correct? <u>18</u> make sure they graduate in a timely fashion. So 19 I think in our constitution I am the 19 students' success, access, affordability is the president of the faculty, although I don't preside second bucket. 20 20 21 21 over the senate. And the third bucket is diversity and What does it mean in your day-to-day an environment where we can learn from each other 22 Ο. 22 work to be president of the faculty? 23 23 and grow. 24 In my day-to-day work it is a title, 24 Let's talk about diversity. Can you 25 but it's something more than a title because it <u>25</u> tell me a little bit more about what your 10 12 1 shows that I am part of the faculty and I'm the initiatives or priorities are specifically in that 2 leader of the faculty, so that's a position I care <u>2</u> area? 3 about because I'm an academic. <u>3</u> Sure. Shortly after I came -- when I 4 As president, you're ultimately arrived here, there had been work that was ongoing Ο. <u>4</u> responsible for everything that happens on campus. for a while on something called the Ideal Plan, 5 <u>5</u> 6 which is a diversity strategic plan. We -- I 6 7 Ultimately, you know, if we think of 7 stepped in and we went through the Ideal Plan. It 8 "the buck stops here," yes. I don't have, 8 was a draft at the time. Ultimately, we -- we 9 obviously, operational responsibility over 9 wrote portions of it and then we improved it. 10 everything. <u>10</u> In the past year, we have been --11 Q. So if a court were to order that <u>11</u> we've asked each of our departments and each of Professor Freyd's salary should be increased. <u>12</u> our units to do diversity action plans where they 12 would you be the person responsible for making would state five or six things that they could do 13 <u>13</u> 14 sure that happened? 14 to enhance campus climate, inclusion, diversity, 15 I think the provost would more likely 15 and what we did is equity in the various units. A. 16 be responsible. The provost handles academic And then what we did is we asked them 16 17 matters and the deans report to the provost. <u>17</u> for metrics that we could judge them on after --18 Obviously, the provost reports to me, so after a year -- every year as deans were coming up 19 ultimately the responsibility would be mine that <u> 19</u> for evaluation. We are finalizing that right now. 2.0 we'd adhere to law. But certainly it would be an <u>20</u> But we have over 30 diversity action plans. 21 attenuated or boarding structure to get to me on 21 I also -- with the growth of the Black 22 something like that. 2.2 Lives Matter movement, we've spent a lot of time 23 23 Can you describe your priorities in on working with our African-American students on a 24 leading the University of Oregon? 24 series of demands that they gave us. So we're 25 Yeah. So I have three priorities. doing things like building a black cultural

15 center. We've changed the multicultural 1 engineering school and we don't have a medical 1 2 requirement. Indeed, I think Jennifer's on the 2 school, which are big sources of those sorts of senate this year. She was involved in that. 3 funding opportunities. 3 4 We are doing things that we hired 4 We have -- another thing that we've 5 African-American faculty into a black culture -- a 5 done is we've gotten a gift from Phil and Penny black cluster. That was something that was done Knight to establish the Knight Campus for 6 by the College of Arts and Sciences. We'll 7 Accelerating Scientific Impact, which will be 8 probably have a black studies minor at some point 8 applied science, and so that's a whole other area for us. We've not -- we've never really done soon. So it's a series of about 12 or 13 things 9 9 that we're doing there. that. And so -- and we are hoping that that will 10 10 We're also trying to do outreach to 11 be very competitive in applying for federal 11 12 LGBTQ groups, to our Latino populations to -- you 12 research support. 13 know, obviously women, and the idea is every group 13 The -- we also want to retain faculty. 14 is different. And so you can't just sort of say, 14 That's something that's very important. It's 15 We're going to do X and everyone is going to 15 easier -- it's always easier to hire than it is to 16 benefit from that. So we try to be very focused 16 retain -- I'm sorry. It's easier to retain than 17 on what the group needs. 17 it is to hire, because you've got the people here, 18 Some groups are less articulate than 18 and we tend to hire on the young side. So -because they're more affordable, we can have more 19 others in terms of telling us what they need, and 19 so we have to kind of go back and research and, 20 of our pick of who -- of the population. 20 you know, identify what the needs are. 21 21 So those are some of the ways in which And another one of the priorities you 22 we are moving forward. We're also trying to get 22 23 mentioned was enhancing the university's 23 each of the deans to identify a set of priorities 24 reputation academically. for what will move their schools forward 25 Α. academically, because what will move -- it's not 14 16 just a let's build the natural sciences, even 1 Can you tell me a little bit more 1 2 2 about how specifically you're endeavoring to do though that's of -- most people on campus know that's a big focus of mine. But, in addition, I 3 that? 3 4 Sure. So the main way that we are 4 want the entire university to get better and so we A. 5 trying to do that is through -- well, it's a 5 want each dean to be thinking about what will make 6 multi-pronged approach, but one is to hire more 6 his or her particular unit better. 7 7 tenure-related faculty, because tenure-related One of the things you mentioned was 8 faculty are typically the ones that do research. 8 increasing federal grants. The purpose of those 9 Not entirely. Some in the School of Education, 9 federal grants is to enable research. Right? 10 for example do that, spend their time doing 10 A. research, but mostly it's tenure-related faculty. 11 11 Ο. So, ultimately, the goal is to So we're doing that. 12 increase research. Correct? 12 13 13 It is we're trying to recruit. So The goal is to -- so the initial goal

for example do that, spend their time doing research, but mostly it's tenure-related faculty. So we're doing that.

It is we're trying to recruit. So we're trying to hire -- so far we're up about 60 faculty since I came here net additions. We're trying to get to between 80 to 100 faculty. We want them all to be highly research active.

We put an emphasis on the sciences, the natural sciences in particular. And we've also -- one of my top objectives is to increase our federal funding, because this school ranks very low among our peers in federal research funding. So that has been a repeated effort as

One of the reasons is we don't have an

20 would be a relatively small chunk. But that
21 supports the entire research effort of the
22 university.
23 And it isn't necessarily one for one

know that our VPRI might take a portion of the

is to increase research. There's overhead from

the grants, some of which is poured back into the
